

FOR IMMEDIATE RELEASE

Capario Named Best in KLAS Indirect Clearinghouse in 2010 KLAS Study

Users rate Capario the top indirect clearinghouse option based on several key criteria.

Santa Ana, CA – January 24, 2011 – Capario, a leading provider of revenue cycle management solutions that connect healthcare payers and providers nationwide, today announced it earned the highest ranking in the indirect clearinghouse product category of the KLAS 2010 *Ambulatory Clearinghouse: Loaded Results and Broad Choices for Providers* report.

KLAS, an independent healthcare technology research firm, identified the indirect clearinghouse category to include offerings made available through practice management vendors. Vendor performance was derived from feedback by existing clearinghouse customers. Providers scored Capario's indirect revenue cycle solution 88.8 out of 100, based on factors such as features, functionality and client satisfaction.

"We're honored our users scored Capario's indirect service option highest among the other offerings," said Jim Riley, president of Capario. "We've worked hard over the years to create solutions that work with a provider's existing billing system. It's that seamless offering and our dedication to customer satisfaction that led to this result. This recognition is a testament to our team's dedication to providing solutions that help providers and their vendors streamline everyday processes and get paid more quickly."

For the 2010 report, KLAS reviewed a total of four indirect clearinghouse offerings, including Capario, Emdeon, Practice Insight and RelayHealth. The full report also evaluates 11 direct services with which providers have direct access to the vendor for support.
